

Be the difference. S90 Recharge.

V O L V O

The New Volvo S90 Recharge.

Introducing the new Volvo S90 Recharge, an updated model that features a new exterior and interior finishing that complements the latest, leading safety and technology features. With this upgrade, the new Volvo S90 Recharge empowers drivers to be the difference when it comes to luxury and sustainability.

Underneath the crisply sculpted exterior lies a chassis that delivers the perfect combination of precise handling and welcome comfort. Double wishbone front suspension and integral axle rear suspension gives you control over the car's movement.

Combining powerful proportions with Scandinavian subtlety elevates the S90 beyond the everyday. Fine detailing and bold shapes combine to create a strong impression. The sculpted bonnet and low roofline suggest power and grace, while the muscular shoulder line identifies the S90 as a Volvo.

Select your power. Choose between five drive modes that allow you to tailor the car's behaviour to your mood and find the perfect setting for the road you're on. The large 9-inch center display further adds to your sense of being in control.
