## Luxury At Its Finest.

Swedish luxury is about the beauty of simplicity, using natural and simple details to express the Scandinavian heritage enjoyed and celebrated at Volvo Cars since its creation in 1927. The exterior design defines the cars character, communicating solidity and confidence. The cabin creates a sanctuary, offering an uncluttered and spacious interior with Volvo's world famous sculpted seats.

By using intuitive technology, Volvo's in-car infotainment control system, Sensus, the majority of functions inside the vehicle are controlled via a 9" center touch screen, removing the need for physical buttons which allows for a cleaner and simpler user interface.
